Specializing in parts for 1963 and 1964 Cadillacs

### About Classic Cadillac Parts

I started Classic Cadillac Parts in early 1997 after bringing in a couple of parts cars to find good pieces for my own 1964 Cadillac Coupe DeVille, which you see pictured above. One parts car led to another, and after 17 years, have amassed thousands of parts from 43 and counting 1963 and 1964 parts cars. As a driver and restorer of these fine automobiles, I pride myself in offering fair prices, extensive knowledge, and a sincere commitment in helping you repair or restore your 1963 or 1964 Cadillac.

I have everything from the smallest fasteners, to engines, transmissions, doors, body panels, interior pieces, suspension parts, chrome, glass, wiring and all the other thousands of individual parts that make up these automobiles. I also have a limited inventory of new or rebuilt parts on hand.

### Requesting Parts

→ If you need something for your 63 or 64 send email to [jasonedge@nc.rr.com](mailto:jasonedge@nc.rr.com) and include your model year, body style and detailed description of what you need.

→ Remember there are 12 body styles in 1963 and 11 in 1964 and many options available and I will not know which year and body style you have unless you tell me.

→ If I do not have something available I do keep a "wait list" and will add your request to the list and get back with you when I have it available.

**→ Parts Cars Wanted!** If your 63 or 64 Caddy has seen better days or perhaps is restorable but you do not have the time or money, and interested in selling and making a few bucks, please contact me at

Jason Edge  
104 New Rand Rd, Garner, NC 27529
