Lecturer Position

The Department of Biochemistry and Molecular Biology at The Pennsylvania State University seeks applicants for a full-time lecturer position beginning July 2017. Candidates must have a Ph.D in a life science field and will be asked to demonstrate knowledge of effective pedagogical strategies, as well as excellence in teaching. Candidates should have experience in one or in a combination of the following areas: biochemistry, microbiology, immunology, molecular and cell biology, genomics and bioinformatics. Successful candidates are expected to be able to teach both laboratory and lecture courses, advise students, and may also have the opportunity to participate in the departmental freshman research initiative depending on candidate’s interest and departmental needs. Service to the department, college and university is expected as well. Candidates are required to apply online at https://psu.jobs/job/68007. Applications should include a curriculum vitae, a statement of teaching philosophy, and the names and contact information of three references. Review of complete applications will begin on January 3, 2017 and continue until the position is filled. Salary is commensurate with experience. This is a fixed-term, 48 week appointment funded for one year from date of hire with excellent possibility of refunding.

CAMPUS SECURITY CRIME STATISTICS: For more about safety at Penn State, and to review the Annual Security Report which contains information about crime statistics and other safety and security matters, please go to http://www.police.psu.edu/clery/, which will also provide you with detail on how to request a hard copy of the Annual Security Report.

Penn State is an equal opportunity, affirmative action employer, and is committed to providing employment opportunities to all qualified applicants without regard to race, color, religion, age, sex, sexual orientation, gender identity, national origin, disability or protected veteran status.
