

## Letter to the International Nyahbinghi Houses

Greetings in the name of the Most I, Haile Selassie 1  
Negus Tafari, Emperor of Ithopia.

I & I The Nyahbinghi National Council of England,  
greet the Outernational Houses in the name of the Most  
I, Haile Selassie 1, Negus Tafari.

I & I the N.N.C (uk) are looking to build up an  
information package for network trading. It is very  
important that I & I communicate with each other and  
share information to Ivelope in a spiritual, physical and  
economic way.

At this moment in time I & I domicile within the (uk) are developing a Sustainable Agriculture project in England, to supply I & I community with economically priced organic food. I & I have acquired lands to grow a significant percentage of our own crops and have also gained support from other black producers and farmers to supply foodstuffs to the Rastafari community.

I & I are also using this project as part of a wider holistic strategy which encompasses strong rights of passage element for the youths within the community to learn about Mother Nature, Eco-Sustainability and to gain a deeper sense of Rastafari livity.

There are however; crops and other unique things that I & I cannot grow or get in England, items and products that would have to be imported. I & I also know that there are equipment and other things that will be beneficial to both I & I community as well as the Outernational Houses and that this project can support the spiritual and physical upliftment of all I & I people.

*“The earth is the Almighty’s and the fullness thereof.”*

*“As the springs and rivers flow from the tree of life, it pours out of the gates down the mountain of Zion and nourishes the black soil. The seed that*

*the Almighty has planted shall rise out of darkness into light.”*

So to round up, I & I The N.N.C (uk) are asking all international Houses to look into the possibility of setting up similar projects in like manner and establishing ecologically sound cross trading links to encourage wider International Rastafari, economic growth.

At this time what is required from all houses interested in participating in this project is a comprehensive and detailed price list of all food and herbs that could be supplied to the (uk) community by either; being imported into the (uk) or exported from abroad as the case may be.

*Yours in Inity: Ras Imus*
