JUNE

Mon 1. Why are the "high spots" always found in low spots?

Tues 2. [sigil: as previously, 3 adjacent triangles connected by a straight line across their bases] & V.I. to lunch. [clipping about penguin eggs] Hard-boiled, one of the half-million formed part of my lunch yesterday. To boil one ordinarily takes 20 minutes: it is about 3 times as big as a hen's egg. The "white" is a beautiful translucent sage-greenish hue, like verdantique or an antarctic lagoon. Penguins bray like jackasses; have quill-less wings; eat sardines & clipfish: share such picturesquely named houses as Plumpudding Island with cormorant, gannet, white-breasted duiker, mutton-bird, oyster-catcher, sand-plover, sand-erling, ruff, turnstone, mollymawk. Anti-penguin, eager to grab egg or chick, is ex-sacred ibis.
  Altogether my lunch was memorably exotic: cooked by host himself in a Bloomsbury flat. He gave us chilli con carne-- Mexican dish so hot that it makes strong men weep. With it were four "side-dishes"-- concoctions based on (a) red macassar fish & poppy-seed (b) tamarind-fish (c) Burmese balichow mad from rotten prawns (bottled, very Spilsburyesque) (d) Kasoondee-- minced mango in spiced oil.

Fri 5. V.I. took Pearl to Victor at Grosvenor House. 
  Cocktails with Metty Marks & an Old-Etonian Eldis. He spoke of I: "Only he thought the Wall Game meant a Fourpenny Puright!" Stayed till 10 talking 93.

Sat 6. [article on H.P.B.]
  She wrote really fine literature--"The Voice of the Silence." (Also, it is still a best-seller after 50 years). She had a greater influence on religious thought in Europe than any one since Luther. That is not to be done by fraud. Her tricks & troopers' oaths were her safeguards against going mad--as you would do if you had as many followers & disciples & devotees to pester you as she had...)
  Pam & Christ Child to dinner. He behaved outrageously. Pearl in very bad way all day: plain hell. And about nothing.

Fri 19. [horary figure of eclipse]
    Roberts 6 P.M. with proofs of prospectus.
    Eclipse falls exactly on the Cusp of my 12th house genethliacal. Hot--thunderstorm--every one done in but me.

    California promises #[ayin]. #[lamed heh] at once. It is here. Yorke in--low cringing coward. But he does feel it.
    .... in--nasty temper as now usual. Shepard ran away--what
spineless things that generation is.

Then she repented, & started sobbing: which was as bad! So I didn't sleep till 4. IT WONT DO.

Asleep--utterly fagged--about 12 despite dreadful rowing.

Fri 26. 1.15 A.M. Wakened by her dream(?). This time "They shan't say that about you" etc. This an old type of nightmare for her, I had to slap her hand & arm really hard many times to wake her.

MEMORANDA FOR 1936

My dear Wooding I have now interviewed Her Lividity's exfiance Mr. Laurence Felkin. Sorrowfully as one must deplore the description "that bitch Melvill," repugnant to all right-thinking persons as must appear the euphemism "that lousy old cow Turner Coles," it is hardly possible for the judicially-minded to escape the conclusion that the young man was most grievously wronged. A tour of the premises on a fast motor-bicycle only confirmed this regrettable decision. "What would Jesus do?"
